## Tools I use

Front-end

back-end

Design

## Objective

To create unforgettable user experiences on the web by utilizing my skills in visual, motion and interaction design.

## Work experience

### ● April 2022 - present

Somo Africa

As an intern I am working with various technologies, interacting with both front-end and back-end engineers and further enhancing my skills.

## Education and certifications

### ● September 2020 - present

Multimedia University of Kenya

Bsc. Software Engineering

Throughout my undergraduate degree I have been fortunate to interact with various web technologies and I have been involved in various activities including social impact organizations and volunteer work.

### ● August 2022 - November 2022

Coursera

Google UX design certificate

I completed my google ux design certification, this equipped me with the necessary skills to create amazing user experiences on the web

### ● February 2016 - December 2019

High school certificate

K.C.S.E

I attained an average mean grade of A- and was part of the countries best performing students.
